Linda:

I just clicked on the dropdown and this is the status:

**May Cooperage Assessment 2: 001 is in Progress so I can't change the POP
Delta Shipyard Pits: Base is still in progress so I can't change the POP**

**Both of the POPs need to be changed and have been hung up by the contract closing date
and the fact that they will not release to be amended.**

I HATE EAS!!!!!!!!!!!!

Thanks

Linda:

**I got the following from Cora. I am confused with the direction as I also received a message
from EAS indicating that the Amendment 001 adding the 100K was processed but when I go
into EAS it still only shows the base TDD.**

Thanks

I have the SRO approval form. There are 3 amendments "in progress" that need to be combined to only 1 amendment before I can approve. Amendment 1 need to corrected to add funds & extend the POP and the other 2 amendments need to be deleted. The help desk can assist in making this correction. I will return the amendments.

Linda,

Do you know if the SRO form has been approved to add \$100,000 to the May Cooperage Soil Assessment TDD amendment 1?
